

# Heavy-Duty Conveyors

Nercon has designed entire truck frame handling lines.

With a wealth of fabrication capabilities and impressive assembly space, Heavy Industrial manufacturers seek Nercon to supply Heavy Duty conveyors and equipment. Nercon's expertise ranges from truck frames lines, appliance lines and engine lines to drum barrel handling systems and commercial paper (master roll) conveyor systems.

**Truck Lines:** Lift assemblies have been manufactured that range from a height of 24' to 85' and weights from 8,000 to 65,000 lb. complete. Truck frame conveyors have been constructed of 50#/ft. beams with 1/4" and 1/2" plate steel construction, depending on the application.

**Die Changing Conveyors:** Nercon has built die changing conveyors that handle 40,000 lb. dies up to 5' x 10', that are used for stamping out range parts.

**Pallet Transport Conveyors:** Nercon has designed a system to transport 250 lb. pallets between two buildings. The two towers are connected by 120 ft. of conveyor.
