For immediate release.

Nercon Joined the Rockwell Automation Machine Builder Program

Oshkosh, Wis. – Nercon has joined the Rockwell Automation Machine Builder Program, part of Rockwell Automation PartnerNetwork framework which includes business enterprise, sales and solutions, and product technology partners. To become a member of the program, Nercon demonstrated innovation and market leadership with conveyors and equipment that incorporate Rockwell Automation solutions.

With the program, Nercon’s customers can expect a high level of support on Rockwell Automation technology used on Nercon equipment. Controls experts and application specialists at Nercon have frequent opportunities to collaborate with Rockwell Automation on product development and design reviews. Nercon controls designers and project engineers will also have knowledge of and full access to new technologies from Rockwell Automation.

Through collaboration with Rockwell Automation, Nercon also helps customers develop an ongoing approach to plant-wide optimization, improve machine performance and achieve sustainability objectives.

For more information about the Rockwell Automation PartnerNetwork framework, visit www.rockwellautomation.com/partners.

Rockwell Automation, Inc., (NYSE:ROK), headquartered out of Milwaukee, Wisconsin, is the world’s largest company dedicated to industrial automation and information, and makes its customers more productive and the world more sustainable.

Nercon is a well known designer, line integrator and manufacturer of packaging and process conveyors and material handling equipment. The company has over 35 years of experience providing modular as well as engineered conveyor systems to manufacturers of consumer products throughout North America.
